DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-14 have been considered but are most in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-9, 15-22, and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicants' invention is directed to a sootblower structure and the structure for mating it to a furnace opening for insertion into the furnace for cleaning and also includes a cooling flange which prevents heat exchange. The invention described in these claims are not considered to be directed to what the applicants invention is as disclosed by the specification.

Allowable Subject Matter

Claims 10 and 11 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 12-14 and 23 are allowed.
